

PILCHUCK GLASS SCHOOL

As an organization that has welcomed artists, instructors, staff and students from over 70 countries with many different backgrounds, Pilchuck is passionate about creating an inclusive, open and supportive community that is accessible to all.

We must work hard every day to ensure we fulfill this mission. As a learning organization, we must be open to change, receptive to feedback, and committed to continuous improvement.

Led by Pilchuck's senior staff and the Board of Trustees, we are launching a thoughtful, thorough initiative to enhance our openness, diversity, inclusivity and accessibility. As a starting point, we are partnering with an experienced and respected diversity and inclusion consultant to review our culture, practices and policies throughout the organization, and advise us on how to improve them.

We are proud of our history as a haven for creativity, transformation and individual expression. Pilchuck is deeply committed to continuing to build a supportive and diverse community around glass art.
